

Identity Theft

Identity theft is a real threat to your financial security, – according to www.FTC.gov, it's been the Federal Trade Commission's number one complaint for over ten years in a row. Identity thieves can damage your credit, cause legal troubles and cost you time and money.

Luckily, your Employee Assistance Program (EAP) from MHN is here for you. Call us as soon as you suspect you've been a victim of identity theft. As an MHN member, you and your eligible dependents are entitled to a 60-minute consultation with a fraud resolution specialist. You'll receive an ID theft emergency response kit, and learn how to:

- Place fraud alerts
- · Freeze credit
- Conduct other activities necessary to resolve fraud
- Close affected accounts
- File police reports

If you are victimized by an identity thief, MHN can help. But prevention, of course, is even better. Call us today for information on how to lower your risk of being victimized, and to request your ID theft emergency response kit.
